Stuart Ford's sales and production outfit already has output deals in place in Canada, Latin American and most of Europe.

Stuart Ford's IM Global has signed an output deal with Impuls Pictures in Switzerland, adding another territory to the group's international network.

IM Global already has output arrangements in place with eOne for the UK, Canada and Spain; Universum in Germany, Top Film in Russia and Eastern Europe and with Sun Distribution in Latin America.

"We're very happy to be in partnership with Impuls, and to bring them into our growing family of similar relationships," said Ford, calling the Swiss indie distributor "the Chopard, Rolex and Roger Federer of Swiss film distribution."
